8471 - 300V LSZH Alternative Cable

APPLICATION
8471 Alternative cable is suitable for use in instrumentation, security, data and audio applications where protection against electrical interference is not required. For installations where fire, smoke emission and toxic fumes create a potential risk to life and equipment.

CHARACTERISTICS
Voltage Rating
300V
Temperature Rating
Fixed: -20°C to +80°C

CONSTRUCTION
Conductor
Class 2 stranded tinned copper
Insulation
HDPE (High Density Polyethylene)
Sheath
LSZH (Low Smoke Zero Halogen)
Core Identification
Pair 1: Black White
Sheath Colour
Grey

| 16.5 |

ISO/IEC 17025 LABORATORY TESTED
This product is subject to the Quality Assurance protocols of The Cable Lab®, an ISO/IEC 17025 accredited cable testing laboratory. Testing includes vertical flame, conductor resistance, tensile & elongation, and dimensional consistency, verified to published standards and approved product drawings.

REGULATORY COMPLIANCE
This cable is compliant with European Regulation EN 50575, the Construction Products Regulation.

This cable meets the requirements of the Low Voltage Directive 2014/35/EU and the RoHS Directive 2011/65/EU. RoHS compliance has been tested and confirmed by The Cable Lab® as meeting the requirements of the BSI RoHS Trusted Kitemark™.

The information contained within this datasheet is for guidance only and is subject to change without notice or liability. All the information is provided in good faith and is believed to be correct at the time of publication. When selecting cable accessories, please note that actual cable dimensions may vary due to manufacturing tolerances.
